

The Governance and Restoration Project of Marine Ecological Corridor in the Main Island of Wenzhou City

(22-MAY-2020)

Overview of PPP project

The Governance and Restoration Project of Marine Ecological Corridor in the Main Island of Dongtou District in Wenzhou City is a newly-built PPP project, in the sector of ecological construction and environmental protection, which is at the stage of implementation currently, with the Bureau of Construction Works as the implementing agency.

The bid winner is a consortium of Hangzhou Zhongyi Ecological and Environmental Engineering Co., Ltd, Hangzhou Financial Investment Co., Ltd, and Hangzhou Landscape Design Institute Co., Ltd. The project is divided into six parts with a total of 26 sub-projects, including 2 projects of road engineering, 2 projects of green engineering and promotion for roads, 10 projects of village environment, 10 projects of design for landscape nodes, 2 projects of the governance of mining slope. It aims at engineering of leisure slow lane with 60 kilometers and slope repair, construction of marine wetland park, modification of 16 landscape nodes

along the island, and the creation of beautiful countryside demonstration zone.
